

What's New in GideonSoft 2021 Release 1

We're happy to introduce the latest GideonSoft release. Along with the performance enhancements and various bug fixes, we have added new exciting designs, changes, and features. The following lists the highlights:

Expanded Reporting Capabilities

Show me the Data! ... We know you need to see the data, and need flexibility on how you see it, so we've added more reports, more display options, and more features.

Change

Powerful new Detail Data Chart ... replacing and expanding on the Line Chart, this makes use of more data sources and more visualizations, and the ability to reference parameters!

Feature

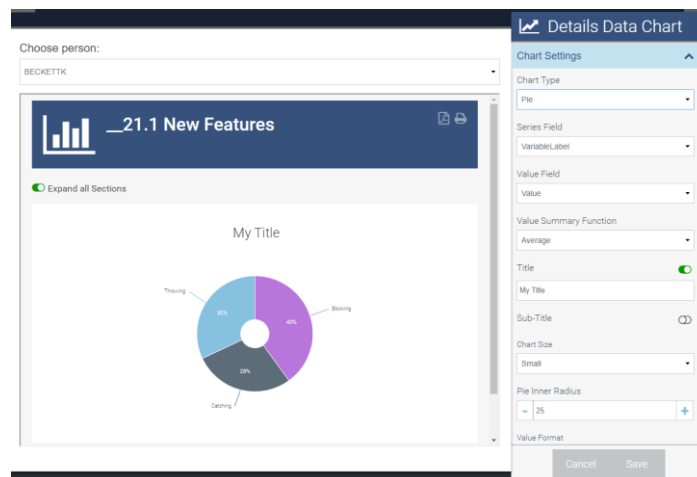

Include any embeddable external content ... display a Power BI or Tableau report or a Wikipedia page right in your GideonSoft report, using the new External Content item.

Feature

More Reporting throughout your Organization ... The Custom Group Report, based on the Instance level version, is now available at the Org and Module levels, and the new Survey Report can show analytics on surveys throughout the Org.

Design

More flexible layout options ... Use master/detail data options to group data within rows in Detail Data Grids. Text Cards can also support this functionality using code templates.

The new Detail Data Chart in action

Dashboard Enhancements

More Control right up front ... We also know you may like to see or display summarized data right when you sign in, so we've added capabilities to the badges and dashboard.

Change

Shared Dashboard Tabs ... Your GideonSoft Admin can now create shared widgets and dashboards for you and others. Display always current people count or score data points for quick reference.

Change

More Badge Control ... Now you can "lock" a badge so others can view the badge but not drill down to the individual data points going into the badge's summary value. You can also "hide" a badge, making it only visible to create a widget.

Feature

New Badge Type ... Scores! Summarize a mapped or unmapped score right on the dashboard.

Design

New Power BI Dashboard Tabs ... Your admin can also set up a dashboard tab containing Power BI content.

The screenshot shows a dashboard widget titled "Coach/Peer Attribute Ratings (Spring)". The widget displays a table of "Top 10-Coach/Peer Attribute Ratings (Spring)" for "All Seasons". The table has four columns: Rank, Person, Location, and Value. The data is as follows:

Rank	Person	Location	Value
1	fernandez.christopher	Football: 2020	0.61
2	schmidt.thomas	Football: 2020	0.6
2	mason.eric	Football: 2020	0.6
4	bennett.ernest	Football: 2020	0.58
4	hill.harold	Football: 2020	0.58
6	perkins.jack	Football: 2020	0.56
7	hicks.harold	Football: 2020	0.56

See an always up-to-date visualization on a shared dashboard!

More Features for Survey Takers

Change

To Be Continued? ... We've added an option for survey takers to save a draft of their session in order to come back and finish it later.

Design

A Table of Contents for Web Survey takers ... just like the GideonSoft mobile app, now an optional table of contents is available when completing surveys on the web.

Table of Contents		
Show All ▾		
Search...		
ERIC, MOTIVATED TO BE THE BEST		
7.	Commitment - Passion for the game; play commitment; accountability	7
8.	If you have any additional comments regarding these attributes, please enter them here.	8
Section 2		
9.	Who is the teammate you are most likely to follow?	9
10.	Who would you consider to be the teammate that most puts the team before self?	9
11.	List energy "vampire(s)".	9
12.	Which 3 teammates would you most want in your foxhole?	9
Section 3		
13.	Who is your unit leader?	10

The Table of Contents helps track what has been completed

Miscellaneous Improvements

Change

More Supervisor options in the C.P.R. ... Supervisors can now edit check-ins made with employees, and the Appraisal page can now be printed and/or exported to PDF.

Change

Spreadsheets can now display Rank values ... Displayed in read only mode.

Change

Expanded tools for admins ... Now Overseers and Overlords can perform bulk password resets.

Change

Easier goal setting ... We've made goals and goal reminders more visible!
